Tumble drying
Up to 85 °C

Ironing on
reverse only

Application temp.*
160 °C

Application pressure*
2-6 bar

Application time*
15 seconds

** These specifications are only intended as recommendations. Certain deviations in temperature, time & pressure may occur depending on the material our heat transfer is applied to.*

BASIC SETTINGS

The following basic settings are suitable for the majority of textiles.

Temp.
160°C

Time
15 seconds

Pressure*
2-6 bar

Plastic carrier removal
Hot/Cold peel

**The standard setting for a small base plate is 2-3 bar, with 4-6 bar for a large base plate. When using a heat press from a manufacturer other than Hot Screen, the pressure should be set to 0.5-1.5 kg/cm².*
